Land Use Planning

Planning4Places' certified planners have developed everything from municipal and regional comprehensive plans to land use regulations, design guidelines, and revitalization plans. We have worked with cities, towns, villages, and counties throughout the Northeast.

- Comprehensive Planning
- Land Use Regulations
- Design Guidelines
- Brownfield Plans
- Downtown Revitalization Plans
- Waterfront Plans

Transportation Planning

Planning4Places staff understands the connection between land use and transportation. We have worked with local, MPO, county, statewide, and federal agencies on transportation planning studies.

- Complete Streets Planning & Training
- Land Use/Transportation Corridor Studies
- Bicycle & Pedestrian Planning
- Streetscape Design

Public Engagement

The Planning4Places difference – We develop unique outreach approaches for every client and listen carefully to what people say to build community support. Our meetings are also fun, interactive, and informative.

- Focus Groups & Stakeholder Outreach
- Public Meetings & Workshops
- Surveys

Resiliency Planning

Planning4Places resiliency planning services focuses on realistic solutions to address flooding, weather events, and sustainability.

- Climate Action Plans
- Resiliency Plans
- Land Use & Zoning Code Resiliency Assessments
